

Stanford Oceans Society Statement of Support and Solidarity

We are outraged by the systemic racism and abhorrent violence towards Black and POC communities that exists in our country. The murders of innocent Black people, including Ahmaud Arbery, Breonna Taylor, and George Floyd have once again brought to light the racism in our country. We recognize that as a group with a shared love of ocean science, we are part of a scientific community that is not immune to impacts of racism including unequal representation of Black scientists in oceanography. Stanford Oceans Society stands in support and solidarity with our Black peers, friends, family, and community. We commit to upholding anti-racist values and actions within our club and in our respective communities.
